

HKETS Summer Workshop Schedule 2017 for IGCSE, A-level and IB Students

Following the success of previous years, we are again taking limited enrolment for our popular summer workshops. This is a great chance for dedicated students to engage in an intensive learning environment, designed to review important topics of respective subjects for targeted learning. Join our workshops to ensure a good start to your new academic year.

Grade Booster Workshops

Customised for prospective **Year 11 and 13 students** who are taking their final examinations in the Spring of 2018 with the aim of reviewing and introducing major topics to improve understanding and application of examination techniques.

Grade Booster Workshops are important for IGCSE students who are to take their upcoming Mock/Christmas exams in a few months time and, for IB students, a chance to review past topics thoroughly and to learn ahead for the finals.

Introductory Workshops

Designed for students who are newly embarking upon the IGCSE, A-level and IB programme in the upcoming academic year (prospective **Year 10 and 12 students**).

From experience, even very capable students find the transition from Key Stage 3 to IGCSE or from IGCSE to IB/ A-level very demanding and challenging. Students will learn ahead and tackle the more difficult topics and concepts so they are more confident when they are finally introduced in their course.
