

# HKETS

## 2020 SUMMER WORKSHOPS

Following the success of previous years, we are again taking limited enrolment for our popular summer workshops. This is a great chance for dedicated students to engage in an intensive learning environment, designed to review important topics of respective subjects for targeted learning. Join our workshops to ensure a good start to your new academic year.

### Get a Head Start

with our introductory courses for students about to start secondary school, IGCSE, A Level or IB studies.

### Boost Your Grades

with our grade booster courses for students heading into their final year of IGCSE, A Level or IB studies.

## THE CONTENT

2-4 students per class

### Introductory Workshops

(prospective Year 10 and 12 students)

From experience, even very capable students find the transition from Key Stage 3 to IGCSE or from IGCSE to IB very demanding and challenging. Students will learn ahead and tackle the more difficult topics and concepts so they are more confident when they are finally introduced.

### Grade Booster Workshops

(prospective Year 11 and 13 students)

Grade Booster Workshops are important for IGCSE students who are to take their upcoming Mock/Christmas exams in a few months time and, for IB students, a chance to review past topics thoroughly and to learn ahead for the finals.

# IGCSE and IB Diploma 2020 SUMMER WORKSHOPS
